ABOUT ME

Multi-passionate and driven, I have experience with HTML, CSS, JavaScript, Python and PostgreSQL. I have a breadth of knowledge gained through a variety of roles that I can apply to creative problem solving. I am an excellent communicator and collaborator. I learn quickly, retain knowledge well and I am committed to continuous improvements by doing a part-time degree in the field. In my spare time, I build programming projects and read.

EXPERIENCE

Case Officer

Charity Commission for England and Wales | 2022 - 2025

- Identified and implemented an improvement to an existing workflow that resulted in a project exceeding target by 20% and teamwide adoption.
- Managed complex caseload, prioritising and managing time effectively.
- Created clear, concise and continually updated documentation.

Library Assistant

Lancashire County Council | 2019 - 2022

- Using excellent communication skills, I taught a computer literacy course adapted to ensure tailored accessibility which increased student success by over 200%.
- Expert use of database management systems.

Creative Director

Freelance | 2017- 2019

- Chaired meetings with stakeholders to confirm scope with clear, professional communication at key points to ensure client satisfaction.
- Analysed large amounts of data making effective decisions on critical details to edit over 5 hours of footage down to 30 minutes.

Digital Marketer

Keele University | 2016- 2017

- Proposed then independently produced a campaign to raise awareness resulting in the most liked Facebook post.
- Worked well collaboratively interdepartmentally to create a cohesive campaign from inception to publication.
- Effective understanding of big picture to work towards long term targets
